M-POWERHOUSE INC AND PITT CEC HILL DISTRICT

THE DRONE TECHNOLOGY EDUCATION PROGRAM

This Program will help students grades **4th-6th** understand basic commercial drone technology, airspace, and weather. Students will learn aeronautical principles associated with *operating* a drone in the national airspace, learn how drones are used in *entertainment* and other fields, and experiment with programming a *micro-drone*. All students will receive a micro-drone upon completion of the program!
